

NH MOOSE LOTTERY COMPUTER SELECTION AND OTHER INFORMATION 2023

When an application for the lottery comes into the NH Fish & Game Department, it is checked to be sure it is complete and legible and that the correct fee has been paid. Information from complete applications received by the lottery deadline is entered into the computer for the drawing. Online applications received by the lottery deadline are downloaded into the lottery database. Once all applications have been entered, the information is verified to confirm eligibility, unit preference rankings, bonus point status and other application information.

The lottery consists of a computerized random drawing from all eligible applicants. For each bonus point an applicant has accrued, his or her name is entered in the lottery once (e.g., an applicant with 20 points has 20 chances of being drawn). When the lottery launches, the computer begins the randomization process. During the process, residents and non-residents are treated separately. The appropriate number of potential resident and non-resident permittees and additional alternates are selected. The final selection order is then set.

Based on the order in which they were selected, applicants are assigned permits. The computer first tries to assign a permit in one of the units ranked by the applicant starting with their most preferred unit; if none of their ranked units is available, the application is marked as ineligible and the applicant is not offered a permit. This process continues until all permits are filled. As a result of ineligible applications via this process, alternates may be used based upon their order drawn and residency type in order to offer all permits.

When permit assignment is complete, a list of permittees and alternates is printed. The selection order for alternates determines the order in which they will be considered to replace permittees if a permittee chooses not to hunt. We are unable to release names of 16 or 17 year old minors that are eligible for the lottery. If drawn, these individuals will be listed as Minor 16 or 17.

Lists of winners will be available on our web site (<http://www.HuntNH.com>) by 12:00 p.m.
