

# SITE & LANDOWNER INFORMATION

## *New Hampshire Summer Bat Colony Monitoring Project*

**Site Name:** \_\_\_\_\_

**Landowner Name:** \_\_\_\_\_

ADDRESS: \_\_\_\_\_

TOWN: \_\_\_\_\_ STATE: \_\_\_\_\_ COUNTY: \_\_\_\_\_ ZIP: \_\_\_\_\_

PHONE: \_\_\_\_\_ EMAIL: \_\_\_\_\_

GPS Coordinates if Known (*NAD 83, Decimal degrees*): Latitude N: \_\_\_\_\_

Longitude W: \_\_\_\_\_

**Roost Structure** (Circle one)

Barn

Occupied house

Bridge

Church

Unoccupied house

Bat box

Town Hall

Utility building

Bat condo

Other structure (describe): \_\_\_\_\_

Approximate number of bat exits \_\_\_\_\_

Directions to Roost Site \_\_\_\_\_

### **Site History and Future Plans**

Have bats been present in the past? \_\_\_\_\_

How many years? \_\_\_\_\_

Have the numbers of bats present changed? How? \_\_\_\_\_

Have bat counts been conducted here in the past? \_\_\_\_\_ Dates? \_\_\_\_\_

If the landowner can provide count numbers, or even estimate and dates from previous years, that would be very helpful. Please attach to this form.

Please indicate if the landowner is interested in learning more about the potential for researchers to visit the site? \_\_\_\_\_

**Guano Collection** – If you can collect and submit guano samples you will help us identify the bat species present.

1. Wear gloves and put fresh guano into a sealed container (plastic medicine vial for example).
2. Put the container into a baggie.
3. Label both with site name and date collected.
4. Mail to: Sandra Houghton
