

URBAN WILDLIFE

MARVELOUS MAMMALS

WHAT MAKES A MAMMAL A MAMMAL?

- VERTEBRATE
- BORN ALIVE
- WARM-BLOODED
- CARE FOR THEIR YOUNG
- PRODUCE MILK
- GROW FUR OR HAIR

MAMMALS ARE VERTEBRATES

Place your palm on the back of your head.

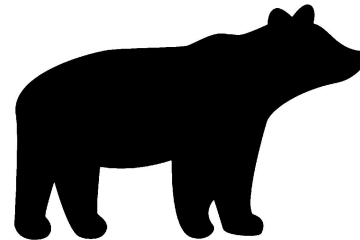

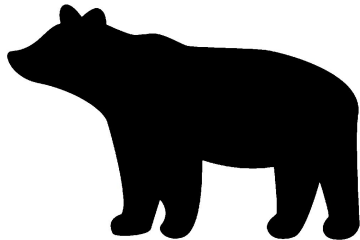

Tilt your chin down towards your chest.

Slide your palm down to the back of your neck and stop when you feel a bump.

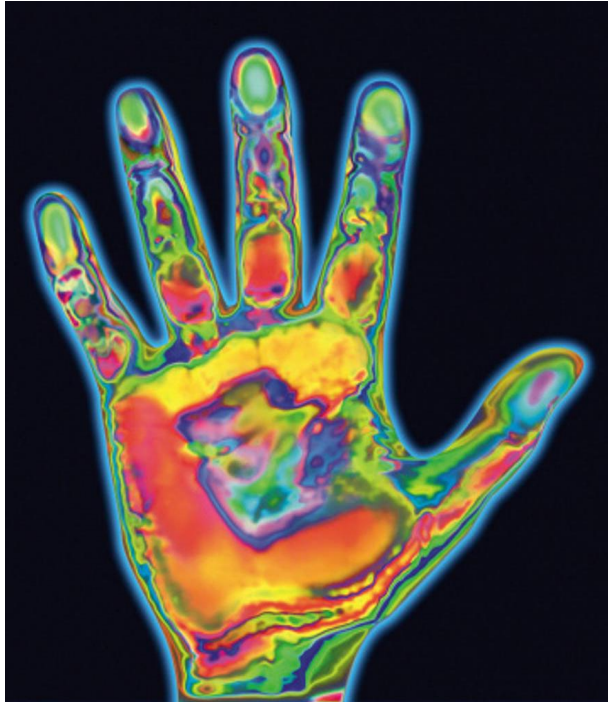

Do you know what that bump is?

It is part of your spine! It is one of your vertebrae!

MAMMALS ARE BORN ALIVE

MAMMALS ARE WARM-BLOODED

Place your hands under your armpits...

Place your hands on your cheeks...

If you're sitting,
place your hands under your tush.

Can you feel the warmth!?

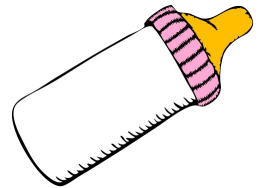

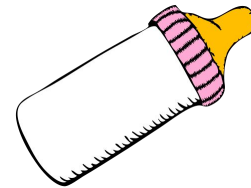

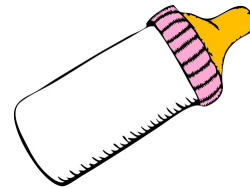

You are a warm-blooded mammal!

You produce your own body heat!

MAMMALS CARE FOR THEIR YOUNG

MAMMALS PRODUCE MILK FOR THEIR YOUNG

MAMMALS GROW FUR OR HAIR

AM I A MAMMAL?

How About Us?!
